

Quarter Round Rack Assembly Instructions:

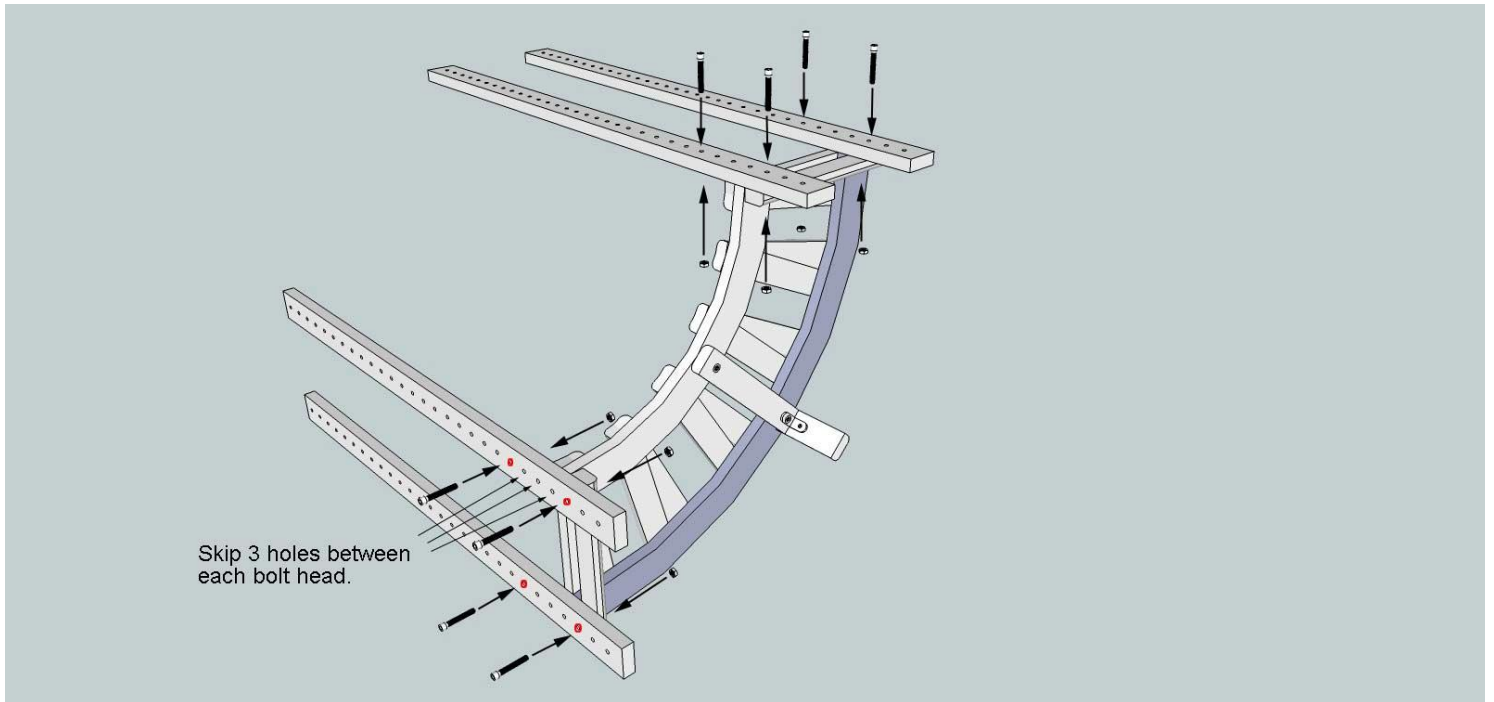

Step 1. Attach small leg assembly to one corner shelf using screw driver and wood screws provided. Small leg assembly must be fastened to middle of corner shelf directly below opening for the middle bottle.

Step 2. Align all rack uprights with ends marked “B” at the same end. This end of rack uprights is the bottom of the rack and will sit on the floor. Starting with the 3rd hole from the bottom of each rack upright, thread bolt through pre-drilled holes of rack upright and attach corner shelf with small leg assembly to 4 rack uprights. Hand-tighten nut on inside of shelf. Do not tighten bolts and nuts completely.

Step 3. Skip 3 holes between each bolt head and fasten remaining corner shelves to rack uprights.

Step 4. Fit top between the 4 rack uprights and fasten top to uppermost hole in rack uprights using the same method as described in Step 3. Use Allen wrench and tighten all bolts completely. Bolt heads should sink slightly into wood rack uprights. Stand rack on rack upright ends marked with "B" and add your wine bottles.
