

Assembly Instructions for 49 Bottle Wine Rack Display Cabinet:

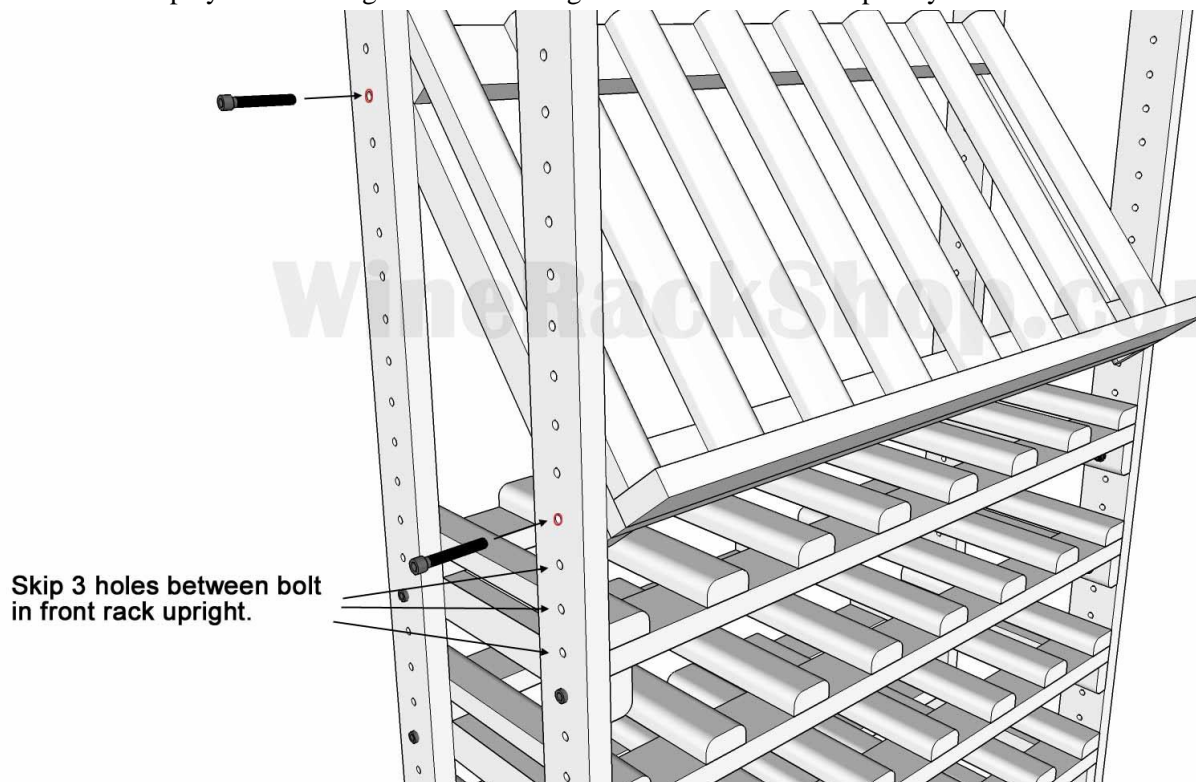

Step 1. Align all rack uprights with ends marked “B” at the same end. This end of rack uprights is the bottom of the rack and will sit on the floor.

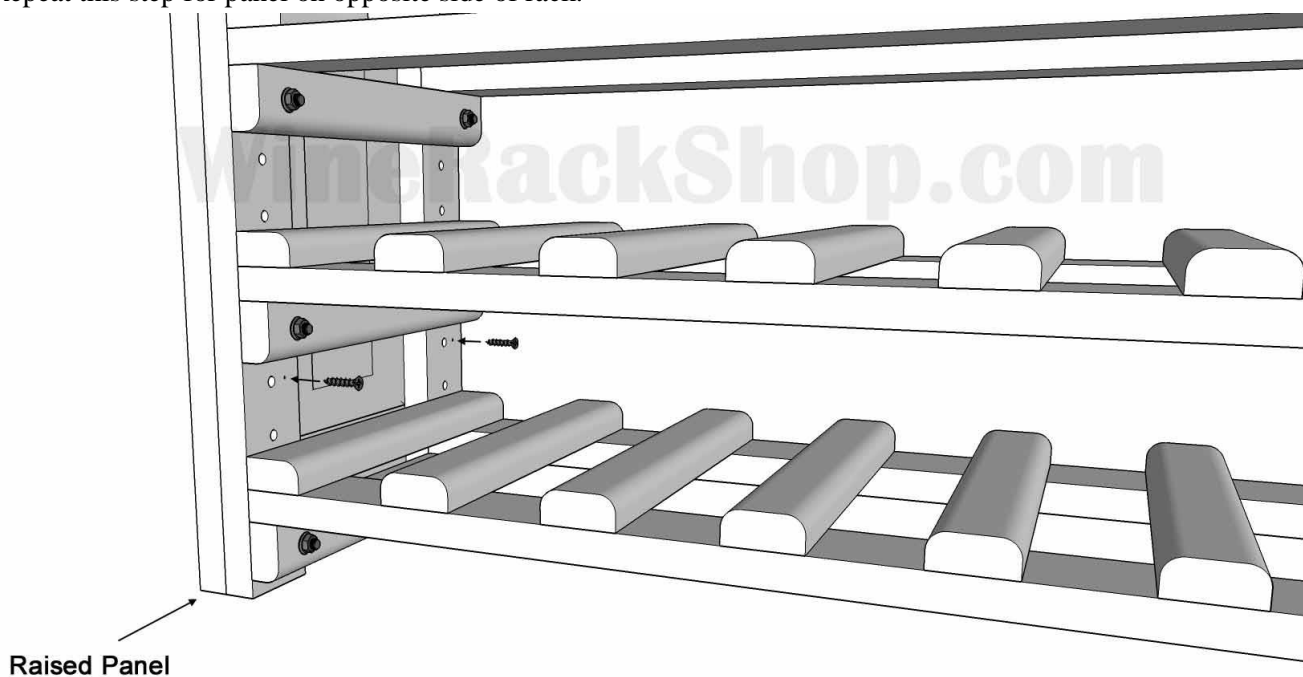

Step 2. Insert bolt through pre-drilled lowest(1st) rack upright hole and pre-drilled shelf hole. Hand-tighten nut on inside of shelf. Skip 3 holes between each bolt and repeat Step 2 for each shelf. Do this for all 4 rack uprights.

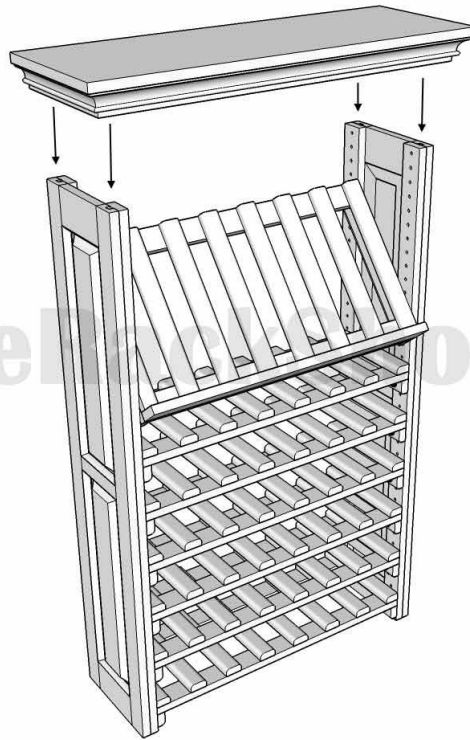

Step 3. Skip 3 holes between uppermost shelf bolt in front rack upright and attach lower end of display shelf. Lean display shelf toward back of rack until hole in upper end of display shelf aligns with hole in rear upright. Repeat this step for opposite side of display shelf. Using Allen wrench tighten **all shelf bolts** completely.

Step 4. Place raised panel flush with outside of rack uprights and attach panel to rack uprights using wood screws and screwdriver. Repeat this step for panel on opposite side of rack.

Step 5. Slide rack top over rack uprights and raised panel sides and onto rack.

6. Add wine to your completed rack.
