

Single Column Rack Assembly Instructions:

Step 1. Align all rack uprights with ends marked “B” at the same end. This end of rack uprights is the bottom of the rack and will sit on the floor.

Step 2. Thread bolt through pre-drilled lowest(1st) rack upright hole and pre-drilled shelf hole. Hand-tighten nut on inside of shelf. Skip 3 holes between each bolt and repeat Step 2 for each shelf. Do this for all 4 rack uprights.

Step 3. Once all shelves are fastened with nut and bolt, use Allen wrench and tighten completely. Bolt heads should sink slightly into wood rack upright. Your rack may contain more or less shelves than shown here. Stand rack on rack upright ends marked with “B” and add your wine bottles.
